

INDUSTRY LEADING WARRANTY

Series 8 Pool Covers Extended Pro-rata Warranty

UP TO 10 YEARS COVER WHEN INSTALLED BY A DAISY EXPERT

The average life of a Series 8 pool cover is eight years. When installed and used correctly, your Daisy can last a lot longer!

To ensure you are getting the most out of your Daisy, we will offer you an extended pro-rata warranty of up to 10 years if your Daisy is installed by a Daisy Expert. Please contact your local pool retailer to arrange for your Daisy to be installed properly by a professional.

RESEARCH, TECHNOLOGY AND SERVICE BACK OUR QUALITY

At Daisy, integrity in service and product are what we stand for. We back our quality products with years of research and development to deliver world-leading, high performing products that last longer – at competitive prices.

All of our products are specially designed, tested and manufactured in Australia. We rarely receive any claims or complaints however if we do, our genuine service is what sets us apart in the industry.

We stand by our quality product

Just in case anything goes wrong we're here to help you. All Daisy products come with a pro-rata warranty which covers the purchaser for defective material or workmanship on a pro rata basis as set out below. The manufacturer will repair or replace the product upon inspection or photo image. Daisy reserves the right to refuse repeat claims of the same damage.

CONDITIONS: The warranty may be void if:

1. The purchaser fails to comply with the manufacturer's installation instructions.
2. Exposes the cover rolled or folded to the sun.
3. Subjects the cover to conditions, which result in tears, cuts or damage.
4. Stores the cover at a temperature above 45 degrees Celsius.
5. Stores the cover in other than complete shade.
6. Allows the chlorine levels to be maintained at a higher than normal level.

This is a pro-rata month by month warranty. This means that Daisy pays for the amount of time that you do not achieve from your pool cover, up to the maximum warranty period. It also means that you must pay for the period of time during which you have used the product.

NOTE: This warranty is not redeemable for cash, only as a discount on a replacement cover purchase.

Register Your Warranty Online

Because your Daisy can last for so many years, register your warranty online at Daisy. We'll keep all your details safe for you so you don't have to!

TWO EASY STEPS:

1. Scan your purchase receipt. Ensure the date of purchase is clearly visible.
2. Go to our website, and click on Warranty Registration. Fill in the details and send!

DAISY ALL YEAR ROUND COVERS

Mix and match your summer and winter covers for optimum all year round pool care

AUSTRALIA'S FAVOURITE.

Highest quality | Best technology | Excellent service

EXPERT TIP:

Get more out of your solar cover by storing it during a prolonged down-time. Why not save it for the warmer months and install a Daisy WinterKleen for the winter season!

GET MORE OUT OF YOUR DAISY ALL YEAR ROUND

Mix and match both: one for summer and one for winter

Having a Daisy pool cover for both Aussie seasons means you'll have the best pool care all year round saving you time, money and energy. Daisy pool covers are so versatile they can be used all year round and as a perfect duo.

SOLAR POOL COVERS

Swim longer and more often!

In summer when your pool is in constant use, solar pool covers work best at heating your pool. They effectively warm and retain the temperature of your pool water allowing you to swim longer and more often. Solar covers also significantly reduce water and chemical loss which all help keep down the cost of maintaining a warm and inviting ready-to-use pool.

Daisy solar pool covers when used in tandem with a purpose built Daisy roller will add months to your swimming season!

Rolled out over your pool when not in use, solar covers trap the sun's heat, retain the warmth and stop water evaporation. You can of course leave your cover on your pool over the non-swimming months, or periods when you're not using your pool as much.

Solar covers will also assist in keeping your pool cleaner. They function best when they are regularly taken off and on the pool rather than leaving it to sit on your pool water for long periods.

Series 8 solar pool covers use latest innovative technology

UltraDome+™

WHEN IT COMES TO SOLAR POOL COVER AESTHETICS DAISY HAS IT COVERED.

Australia's favourite pool cover uses their latest industry leading innovative technology, UltraDome+.

What makes UltraDome+ different?

MODERN AND SOPHISTICATED DESIGN TO COMPLEMENT LATEST POOL LANDSCAPES

UltraDome+ not only utilises the UltraDome bubble technology, it has been designed to let the maximum amount of the sun's energy through and less out. The UltraDome+ clear top and translucent bottom is a winning layer combination as both layers allow maximum sun energy to pass through without interruption.

Clear top and translucent bottom layers for max heat and retention

WINTERKLEEN POOL COVERS

Perfect for pool landscapes with high debris

WINTERKLEEN COVERS ARE MADE OF A FINE POLYPROPYLENE MESH THAT IS SPECIALLY DESIGNED AND TESTED TO NOT ONLY SURVIVE THE AUSSIE ELEMENTS BUT ALSO LIGHTWEIGHT ENOUGH FOR EASY HANDLING.

WinterKleen covers work well when installed over your pool to protect it during longer periods when the pool isn't being used as much. In the winter months, a WinterKleen cover protects your pool from leaves, dirt and debris but allows water through into the pool. Using a WinterKleen in summer is also a great idea to make it easier to maintain your pool if you have a high debris problem.

The finished cover is installed over the entire pool area and overlapping it by 200mm with tie-down toggles, about 800mm apart, anchored a further 200mm from the cover edge. A minimum of 400mm from your pool's edge is needed to install a WinterKleen.

The tie-down toggles are easily pulled tight one by one until taut. WinterKleen covers do not stretch so leaves and dirt that fall on the cover can be easily be blown or swept off. Inflatable pillows are available to hold the cover out of the water for high debris or large pool installations.

How toggles can be anchored to paving

EXPERT TIP:

When installed correctly your Daisy will last longer! If you would like your cover to mirror a shaped curvilinear pool, this will require an expert to measure accurately so that you can be assured a perfect fit.
