

**LOW SALT**

## Salt & Swim® 3C

COMFORT AND CONVENIENCE  
AT A COST YOU'LL LOVE

Salt & Swim 3C provides complete pool and spa sanitisation by converting ordinary salt into 100% available chlorine. Operates on low flow rates down to 60 lpm which allows use at energy saving pump speeds. Why chlorinate your water the old way, lugging buckets and jugs of chlorine, when Salt & Swim 3C can do it all for you – and at less than half the cost?

- Low salt - 3500ppm
- Low flow - 60 lpm
- Low profile for easy retrofits
- Produces 100kg of 100% pure available chlorine
- Plug & Play – easy to install

**Low Salt Requirements**  
 • Uses less salt at only 3500 ppm for optimum performance.

**Weatherproof Control Unit**  
 • Low profile for easy retrofitting on existing systems.

**Low Flow Requirements**  
 • Salt & Swim®3C has a more finely tuned dispensing capability and can operate at much lower flow rates

**System Status LED Lights**  
 • Boosting, Generating Chlorine, Generator Resting and Problem Detected.

**Intuitive Control Panel** behind flip-down door.

**Communication**  
 • Salt & Swim Boost function will automatically tell your pump when to stay on and when you need more chlorine produced.

**Cell Cap**  
 • Insulated Cable Connection to Control Box.

**Retaining Nut**

**Salt Cell**  
 • Produces 100 kg of pure available chlorine\*; saving you 50% or more on chlorine costs.

**Salt Cell Vessel**

**Easy-Install Nut Assembly**

**Outlet for Pool Filter Pump**

**Universal Unions**  
 • Salt & Swim comes with standard Hayward TriStar Universal unions for quick and easy connections.

\*Expected service life of the cell

## Comfort and Convenience at a Cost you'll love

The comparisons are astounding: just one small Salt & Swim 3C salt cell equals 100 kg of available chlorine, or 110 kg of Trichlor, or 850 litres of liquid chlorine. Why chlorinate your water the old way, lugging buckets and jugs of chlorine, when Salt & Swim 3C can do it all for you - and at less than half the cost? Salt & Swim 3C provides complete pool and spa sanitisation by converting ordinary salt into 100% available chlorine.

### Installation requirements

1. For Residential swimming pools up to 60,000 - 90,000 litres depending on climate and bather load. Please consult your pool professional for details.
2. 220-240 Volt RCD outlet within 5.5 metres of pool equipment pad (Note: power cords should not be placed on active walkways).

**SAVE 50% OR MORE ON CHLORINE COSTS**

110 kg of Trichlor

### Salt & Swim 3C for swimming pools up to 90,000 litres

Model	Description
1D-SASAU	Salt & Swim 3C
20-SASCELLAU	Salt & Swim 3C salt cell

### It's amazing - 1 Salt & Swim 3C cell produces the equivalent of:

100 kg of 100% pure available chlorine

850 litres of liquid chlorine (10%) – weighs 1 tonne

110 kg of Trichlor (90%)

25 grams of chlorine per hour at 3500 ppm
