 AFFECTING YOUR POOLS
 CHEMICAL BALANCE!**

SUITABLE FOR:

- ✓ CERAMIC TILES
- ✓ MARBLE SHEEN
- ✓ PEBBLECRETE
- ✓ QUARTZ RENDER
- ✓ NATURAL STONES

Pool blok turned up late Friday afternoon. Used it on weekend. Fantastic. My spa looks brand new again. I have ordered another 6. Want the rest of the pool to look as good and have a few spare. What I loved was that it removed the hard calcium deposit at the water line without any damage whatsoever to the tiles. We have very hard water here in WA and I have tried a lot of things to get it off. (Most things are very toxic and horrible like scrubbing with a watered down pool acid mix). The pool blok was easy. Just a bit of rubbing and it came straight off. It is so great to get a product that actually did exactly what was advertised.

After so many years of using harsh chemicals and still not getting the result we had hoped for I was so surprised at how well this chemical free product worked, this is definitely a product we will be using from now on and will leave one with each of our customers on pool start up to keep their tiles and interiors looking new and free from stains, what a great product.
