U3KS special

Suitable for Saline – Chemical Media

- U3KS Special model is made from high-quality chemical resistant material. Enabling it to handle aggressive medias such as liquids containing salt, brackish water, condensate, silage liquor, liquid fertilizers and water of high temperatures (dishwashers).
- The U3KS Special pump provides the same outstanding innovative technical features as the U3KS. If the sump runs dry temporarily, the pump can be vented by providing a drill-hole in the spiral housing.

- For saline solutions up to 10% salinity
- Continuous operation
- Low level pumping
- Flushing device
- Safe to run dry
- EIP technology
- Swing-type check valve for portable use
- SiC mechanical seal
- Moisture sealed cable inlet

Submersible Sump Pump

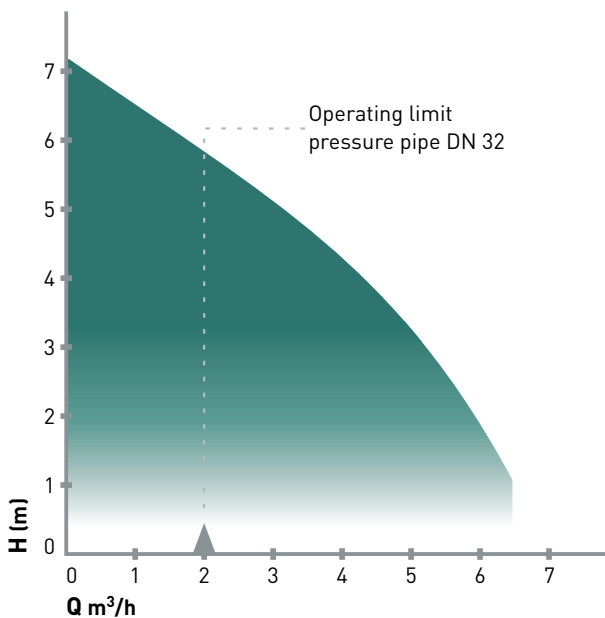

Maximum Height X Width	Discharge branch	Free passage	Cable quality	Cable length	Weight approx.	Code No.
255 x 275 mm	1 1/4"	10 mm	H07RN-F	5 m	4.3 kg	JP 44084
