

VIRON CONNECT

Description:

Viron Connect is an interactive touch screen LCD control suitable for installing anywhere undercover that connects all pool and spa equipment for easy operation and personalisation for your pool and spa customers. Install the optional Internet Gateway (part code 10030), download "Connect my pool" app from iTunes or Android store and operate your pool from anywhere in the world.

Viron Connect's software is based on a Single Touch Favourite Mode system. All your favourite operating modes for the pool and / or spa system are programmed and personalised so that a single touch will activate your pool or spa.

"Night Time Spa" (heater on, filter pump, motorised valves, jet pump and spa light) can all be programmed to come on at the touch of a Single Personalised Favourite Mode.

"School Holidays" may be named and personalised to turn a waterfall, pool heater and night light on.

Viron Connect has 10 equipment outlets, 4 motorised valve outlets, in-built solar automation, inputs / outputs and all individually named to represent the piece of equipment plugged into the Relay box.

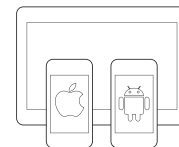

Flexible, easy to program and even easier to use, Viron Connect gives your customer the simplicity and affordability to control their pool and spa.

Ordering:

Please specify product number when ordering.

Warranty Guide:

12 months warranty (return to factory for labour in-field warranty)

CONNECT LITE

Description:

Viron Connect LITE is a low cost and expandable integrated Pool Automation System. Low cost because it reduces the number of weatherproof power outlets required at your pool or spa filter system, expandable because it can be simply upgraded to include a full colour touch screen controller and then the AstralPool Internet gateway is easily added to enable full control from the ConnectMyPool app downloadable for free on Apple iOS and Android platforms.
