About the Davey ClevaLink™ system

The Davey ClevaLink™ Appliance Control System includes a Master Control Unit (MCU) and a Link Control Unit (LCU) which can be operated together or individually to suit your needs. You can add LCUs to increase the network capability whenever it's required.

Master Appliance Control Unit (MCU) and Remote
ClevaLink™ is easy to set up and operate, just set and forget. The MCU includes a clear LCD display, simple touchpad controls and 2 x 10 Amp outlets in a robust, weatherproof, wall-mountable unit.

The MCU is a sophisticated controller, which includes 16 inbuilt timers, 8 appliance group functions, and macro functions for the ultimate in easy, convenient appliance control.

The MCU provides automated wireless control over multiple ClevaLink™ units so you can easily control many different appliances.

It also comes with an 8 channel remote control so you can control individual appliances or grouped appliances at the press of one button.

Link Control Unit (LCU)
The LCU is a 2 x 10 Amp weatherproof and wall mountable outlet that can be remote controlled and wirelessly linked to the MCU and multiple LCU's to control all of your pool and yard appliances.

Plug and Play
The Davey ClevaLink™ is so easy to install, just plug and play. No need for an electrician to hard wire it so you can do it yourself economically and hassle-free.

DAVEY®
ClevaLink™
Controllers

Work smarter, not harder.

Where can I use the Davey **Cleva**Link™ Controller?

Are you after quick and simple automation of your pool equipment and other electrical appliances?

The Davey ClevaLink™ will give you simple control of 2 to 16 different devices around the pool and home.

Do you want remote and automated control over your pool system?

Now you don't have to leave the comfort of your house to activate your filtration system, pool lights or water feature. Just point your remote and activate.

Easy to install?...
Just position, plug and play.

Set up is fast and simple with the Davey ClevaLink™. Install one unit or multiple units.

AROUND THE POOL

- Control filtration and sanitation times.
- Turn on your pump and chlorination device without leaving the house.
- Activate pool lights together and in sequence.
- Activate your garden, path lighting & water features together with one button or at set times.

AROUND THE HOME AND BACKYARD

- Activate your backyard audio system.
- Turn on your pond pump without leaving the house.
- Activate a rainwater tank pump to water your garden.
- Activate yard flood lights while on vacation for added home security.

AROUND THE FARM

- Activate a pump for stock watering, irrigation or water transfer.
- Activate lighting to a shed, warehouse or barn.
- Activate compressors and fans.
