Pentair Water

Main Drain

Models

1022000

1022001

Should you the installer or owner be unfamiliar with the correct installation or operation of this type of equipment you should contact the distributor/manufacture for the correct advice before proceeding with the installation or operation of the product.

Relax - you've bought an **onga**® ...

Congratulations on your decision to purchase an Onga product. Onga is one of the best know brands in its field, with a proud local and international reputation.

Onga is a brand for reliability, value for money and technological innovation. You will find Onga product wherever people need to move water in 3 broad markets covering:

Residential

Technologically advanced solutions for moving and treating water in the Home, Garden, Pool and Spa.

Agricultural

Innovative Stock and Crop water management solutions for Primary Industries.

Process

Water movement products for Building services, Emergency services and Original Equipment Manufacturers.

1. Continual Product Improvement

We employ the best engineers both in Australia and around the world to develop new and better ways to take water further.

2. Operational Excellence

There is only one standard that we set ourselves for both product quality and the quality of our service. That standard is excellence... to have no-one better than us at what we do... nothing short of that is acceptable. Our commitment to quality is reinforced with our ISO 9001.

3. A Fair Price

Onga products are neither the cheapest nor the most expensive in their field. Our products do, on the other hand, always represent very good value for money; they always have and they always will.

4. Our Team of Dealers

The hand picked authorised Onga dealer network throughout Australia and worldwide are second to none. We invest considerable time and resources training and supporting them through the Onga Training Academy.

Warnings

IMPROPER INSTALLATION OR USE OF THIS PRODUCT MAY PRESENT A RISK OF HAIR OR BODY ENTRAPMENT AND DROWNING. Install this equipment in accordance with the instructions provided. Use only with the components and mounting hardware provided.

FAILURE TO FOLLOW THESE INSTRUCTIONS AND/OR USE WITH COMPONENTS NOT PROVIDED BY PENTAIR WATER AND INTENDED TO BE USED WITH THIS PRODUCT MAY RESULT IN IMPROPER POSITIONING OR FUNCTIONING OF DRAIN COVER AND MAY CAUSE SEVERE PERSONAL INJURY OR DEATH.

The body of this main drain is constructed of ABS. Some PVC jointing compounds are incompatible with ABS possibly causing failure to this product. Check compound suitability prior to use.

Never use a pool or spa that has a missing or broken drain cover. USING A POOL OR SPA WITH A MISSING OR BROKEN DRAIN COVER CAN RESULT IN HAIR OR BODY ENTRAPMENT WHICH CAN CAUSE SEVERE BODILY INJURY OR DEATH.

Pool pump suction is hazardous. Entrapment against pool suction outlet can result in drowning or disembowelment.

Never use pool or spa unless all outlet covers are correctly installed, fastened with four screws and intact. Never sit or lean up against suction outlets.

**DANGER**

Hazardous suction.
Can trap hair or body parts, causing severe injury or death.

DO NOT BLOCK SUCTION.

Safety

Models

1022000 Onga Main Drain - White Complete
1022001 Onga Main Drain - Brown Complete

Important Recommendations

To help prevent entrapment and possible severe injury or death to users of the spa or pool, do the following:

1. If the main drain system has only one suction pipe to the pump, anyone blocking the spa or pool suction outlet with long hair or body members may be trapped and held against the suction fitting. Multiple suction outlets and anti-vortex covers minimize this risk..
2. Install and maintain covers on all outlet fittings and all frame and anti-vortex assemblies. Replace broken fittings and covers immediately. While pool or spa is operating, covers must be securely fastened with the four (4) screws specified. Anti-vortex covers are designed to help prevent entrapment. Failure to maintain the pool fittings and covers can lead to entrapment and severe injury or death. The use of a pool or spa having suction fittings with broken or missing covers can lead to entrapment and severe injury or death.

To prevent entrapment

All main drains must have intact covers installed. Screws must be retained on cover. Replace any broken or missing covers or screws.
