

VANTAGE

IN-FLOOR CLEANING & CIRCULATION

- CLEANS ENTIRE POOL: FLOOR, WALLS, STEPS, AND BENCHES
- PATENTED DEBRIS COLLECTION ZONE
 - 99% CLEANING GUARANTEED***
 - ALWAYS SWIM READY
 - NO ROBOTIC CLEANERS AND HOSES TO REMOVE
 - SAVES CHEMICAL & HEATING COSTS WITH IMPROVED CIRCULATION
 - EXTENDED SWIMMING SEASON
 - NO ROUTINE MAINTENANCE
 - LIMITED LIFETIME WARRANTY ON CLEANING JETS
 - MDX-R3® VGB COMPLIANT DEBRIS DRAIN WITH ANTI-ENTRAPMENT TECHNOLOGY

FROM THE WORLD'S #1 IN-FLOOR CLEANING SYSTEMS COMPANY

VANTAGE SS ENHANCES CLEANING & CIRCULATION

Enhance your pools cleaning & circulation by adding Paramount's optional **Vantage SS** Package, powered by Swingjet technology, to your in-floor system. These patented ratcheting wall returns, sequentially oscillate in a 90 degree cleaning arc sweeping debris from walls and hard to reach places.

*MDX-R3, Swingjet, MVFUSE, Debris containment canister, and nozzles in steps, benches and swimouts are optional.

**WARNING: MDX-R3 and SDX must be installed in accordance with Paramount's written instruction manual, and in conformity with applicable Federal, State, Local and Swimming pool industry building and safety codes.

***Applies to systems that include an MDX-R3 and nozzles placed in steps and benches.

BUILD YOUR POOL TO CLEAN ITSELF

When it comes to spending your free time there are more important things to do than tending to your fiberglass swimming pool. Thanks to Vantage, the automatic in-floor pool cleaning and circulation system, your pool can be built to clean itself while you relax. Built right into the pool shell Vantage is engineered to clean your entire pool, including steps, benches and swimouts. Vantage is so effective that it will clean 99% of your entire pool, guaranteed, as well as significantly reduce heating and chemical costs for the life of your pool. When not operating, the cleaning jets disappear back into the pool floor, making it virtually invisible. There are no vacuum hoses left floating in the pool. All that's left is a sparkling clean pool that's ready to enjoy.

HOW IT WORKS:

1. Rotating pop-up cleaning jets are placed in floor, steps* and benches* to clean the entire pool. These cleaning jets work together to sweep debris toward the Patented Debris Collection Zone.
2. The MDX-R3* VGB Compliant Debris Drain continually collects large debris directed to it from the patented debris collection zone and delivers it to the Debris Containment Canister.
3. The Debris Containment Canister* works in conjunction with MDX-R3 drain. It holds large debris for easy deck side removal. Additional safety can be achieved with the optional **MVFUSE** Magnetic vacuum release system (SVRS).
4. The SDX* VGB High Flow Safety Drain works together with the MDX-R3 to offer an additional layer of anti-entrapment protection.
5. The patented Swingjet* ratcheting wall returns, sequentially oscillate in a 90 degree cleaning arc enhancing the Vantage's cleaning and circulation.

6. The Vantage automatic watervalve functions as the brain of the system and directs a powerful flow of water to each set of cleaning jets. The watervalve requires no routine maintenance, and is also 100% pressure safe.

VANTAGE SAVES CHEMICALS, ENERGY AND MONEY WITH IMPROVED CIRCULATION.

Not only is Vantage a powerful pool cleaning system, it's also an advanced circulation system. Ordinary pools circulate water near the surface of the pool, where chemicals and heat are quickly lost into the atmosphere. This often leads to wasted chemicals, wasted heat energy and several poorly circulated algae-prone areas throughout your pool.

Vantage improves the poor circulation found in ordinary pools. Using rotating cleaning jets strategically placed in the pool floor, Vantage evenly circulates water throughout every square inch of your pool. This improved circulation has been proven to create a cleaner, healthier more comfortable pool water while reducing the loss of chemicals and heating energy to the atmosphere. This means Vantage will save you money while it delivers healthier water.

Independent studies have proven that you can expect significant savings in chemical costs and heating costs for the life of your pool.

8 DESIGNER COLORS TO CHOOSE FROM

CIRCULATION BENEFITS:

- ENJOY CLEANER, HEALTHIER WATER
- NO POORLY-CIRCULATED ALGAE-PRONE AREAS
- ELIMINATES COLD SPOTS FOR MORE COMFORTABLE SWIMMING
- SAVES CHEMICALS FOR THE LIFE OF THE POOL
- SAVES ENERGY COSTS FOR THE LIFE OF THE POOL
- BETTER FOR THE ENVIRONMENT
- INDEPENDENTLY PROVEN TO SAVE YOU MONEY FOR THE LIFE OF YOUR POOL
