SPECIFICATIONS

Model LR Cantilever Ladder

The Pooldeck LR cantilever has been designed to fibreglass or vinyl lined pools. It allow the steps to hang down without touching the walls. Fitted with white moulded treads reinforced with stainless steel rod with dome nuts for extra strength, 500 mm wide c/c. Available with a flange and cover plates or standard.

Material: Stainless Steel 38mmø mirror polished.

Standard: The legs are 100 mm longer at the top which allows you to set the ladder in concrete or epoxy and a suction buffer is fitted to the bottom of the ladder allowing it to rest on the wall without damaging it.

Flanged Top: A flange allows you to fix the Ladder to the pooldeck using a bolt and plug set or similar. (3 per flange) A flange is welded at the top and a suction buffer is fitted to the bottom allowing it to rest on the wall.
