Q3705-35	Spa Power Colour Light (SPCL) with 3.5mtr lead
Q3705-100	Spa Power Colour Light (SPCL) with 10mtr lead

FEATURES

Utilising the latest in efficient LED technology the SPCL offers long life and a range of single colours to make any pool look stunning. the SPCL simply plugs into any of the latest Spa Power range of controllers and is controlled via the controllers pool side touch pad, making it a perfect accessory. Installation as per a standard 2.5 inch pool light.

- Energy efficient design, Maximum 12V current drawn is less than 0.08A
- Typically LED life of 50,000 Hrs to 100,000 Hs compared to a normal incandescent bulb life of between 5,000 Hrs to 15,000 Hrs.
- Energy efficient design means SPCL runs far cooler than a normal bulb.
- Light output exceeds that of a typical 9W bulb using filter lenses.
- Approvals matches the Spa Power range of equipment offering safety, EMC and immunity approvals to EN standards, making it suitable for sale in markets such as Europe, Australia and New Zealand.
