COMMERCIAL BLUE LINE FAMILY

Robotic Pool Cleaners

COMMERCIAL BLUE LINE FAMILY

Diagnostic 3001

Highly efficient cleaning for hotel, campground and swim schools pools that up to 20 m in length. The advanced scanning system ensures accurate scanning for systematic coverage of floor, walls and water-line. High-capacity, fine filtration filter bag captures all dirt, dust and other debris, leaving clean and hygienic water throughout.

ProX 2

Highly efficient cleaning for hotel, campground and school pools are up to 25 m in length. The advanced gyroscopic system ensures accurate scanning for systematic coverage of floor, walls and water-line. High-capacity, ultra-fine filtration and fine filtration filter bags capture all dirt, dust and other debris, leaving clean and hygienic water throughout.

Two by Two

Put the power of two robots to work at once with this heavy-duty cleaner designed for professional pools up to 50 m in length. With dual brushing action, dual high-capacity, ultra-fine filtration systems, and a sophisticated gyroscope, it expertly cleans the entire pool floor and walls with maximal effectiveness and efficiency.

Brushes	Combined	Combined	Combined
Wall climbing	✓	✓	✓
Dual drive motors		✓	✓
Remote Control		✓	✓
Weight	11 kg	12 kg	20 kg
Suction rate (per hour)	17 m ³	17 m ³	32 m ³
Motor unit voltage	24 VDC	24 VDC	27 VDC
Power supply - digital switch-mode	✓	Indication delay	
Output <30 VDC; IP 54		Full filter bag indicator	
Caddy	✓	✓	✓
Warranty on all parts	24 months	24 months	24 months

Gain heavy-duty cleaning performance, with robust reliability for long-term, cost-effective operation. Commercial robotic cleaners from Maytronics are the proven, professional solution for any commercial Olympic pool – from small public pools to the largest, professional pools.

Advanced technologies ensure comprehensive scanning of the entire pool and highly effective brushing and filtering throughout. With fully automated operation, your staff can focus on other tasks and your pool water is left sparkling clear and hygienic after every cleaning cycle.

Total pool cleaning

Unique gyroscopic system delivers accurate and effective scanning for systematic cleaning along the entire pool.

Maximum hygiene

Thorough brushing efficiently removes algae and bacteria, enhancing water quality.

User-friendly

Fully automated, plug & play operation, with optional parameters to suit every pool, ensures easy use and maintenance.
