- Scrubs and vacuums entire pool floor
- Built in pool pump and filter
- Large filter bag
- Lightweight and easy to lift

## Nitro Robotic Cleaners

Independent to the pool's circulation system, Nitro Robotic Pool Cleaners is driven by electric motors within the cleaner itself. The cleaner's drive motor moves the cleaner around the pool, while the cleaner's pump motor vacuums dirt and debris into its filter bag.

Nitro Robotic Pool Cleaners operate on very little power plus they reducing pool chemical consumption and increase water conservation by reducing the need to backwash your pool filter.

- Saves energy, chemicals and backwashing
- No installation required
- Micro filters the pool water
- Operates on 23 volts DC
- Assists pool water circulation
- Suitable for vinyl liner, fiberglass, tile and concrete pools

- Wide cleaning swath for faster cleaning coverage.

- Quick-drain system for easy-lift™ removal from pool.

- Large vacuum intake ports.

- Large filter bag.
