

Trimline Bag Filter

The economical and user friendly alternative

The Trimline Bag Filter (TBF) offers an economical and user friendly alternative to many liquid filtration applications with favorable operating cost benefits.

TBF filter bags are particularly useful for the filtration of high viscosity liquids and liquids with a high level of particulate concentration.

- Ideal as a coarse pre-filter / leaf trapper
- Disposable filter bags
- One piece mould construction
- Able to withstand up to 600kPa (87 psi)

Trimline Bag Filter

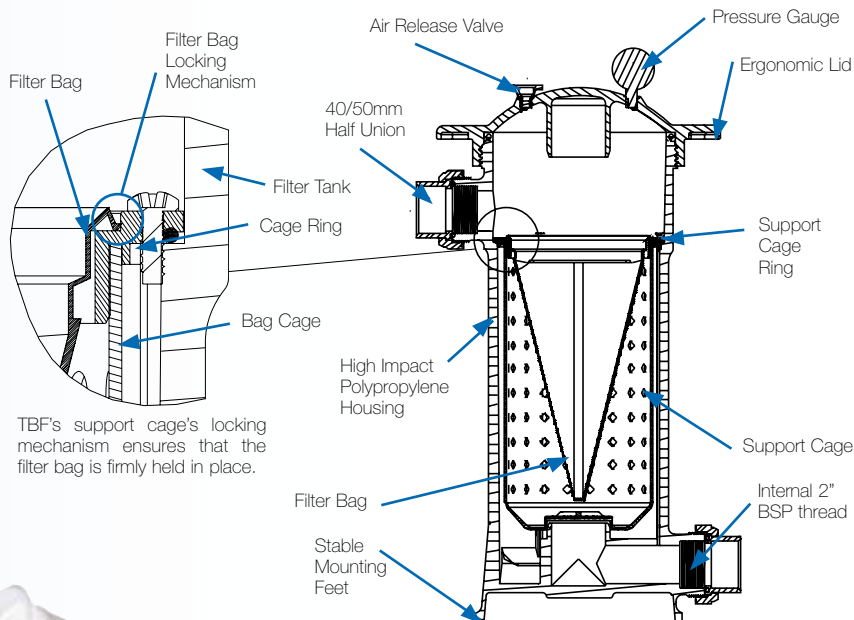

TBF housings are constructed from high impact polypropylene to be compatible with a wide range of fluids and its ergonomic screw down lid is designed for simple hand operation allowing for a quick filter changeover.

Warranty

TBFs are covered by a 5 year warranty (2 full + 3 pro-rata) against faulty materials and workmanship. Commercial applications attract a 2 year conditional warranty.
